SAFELY WORSHIP

Safely Intact LLC provides training, guidance and support to places of worship in an effort to promote “Worship without Worry”.

Every place of worship is responsible to take reasonable steps to protect those who serve and worship in their facility. This can at times seem like a daunting task - let Safely Intact help.

The “Safely Worship” training seminar is a 4-hour block of training that is empowering, engaging and relevant.

On-site risk assessments are also available in order to help you gauge your need and vulnerabilities.
